"Observe good faith and justice towards all nations."

—George Washington

BIRDS OF OHIO

The Ohio Academy of Science is considering the publication of a revised and enlarged edition of the "Birds of Ohio" by Professor Lynds Jones of Oberlin, the foremost ornithologist of the state. Professor Moseley of this college, now the only surviving member of the Academy who has kept up membership from the beginning, has urged the executive committee to undertake the publication of this important book. Last week he obtained the signatures of 117 students in the Science Building who agree to purchase copies when the book is ready for distribution, if they can buy it for one dollar. After it is printed, the price for those who have not subscribed in advance is expected to be about two dollars. The book is to be illustrated, and is to be one of the most accurate and useful of all low priced books on the birds of any state.

Students who are expecting to teach children or who want for their own use a first class book on the birds of Ohio should see Professor Moseley soon and subscribe for the book.

Brief Outline of An Address Given Graduates of Bowling Green College on February 2

By SUPT. E. L. BOWSHER

- (1) *Size of the Job in Education*
 - a. About thirty million pupils in the American Public schools.
 - b. 275,000 school houses—a new one every day in normal times.
 - c. 1,760,000 school teachers.
 - d. Thousands of Board members—10,605 in Ohio alone.
 - e. Millions of men and women in parent-teacher groups.
 - f. The power of the schools as a mold of life and public opinion in a democracy.
- (2) *Some of Our Problems of the Present*
 - a. The apparent breakdown of our present system of schools due:
 1. The financial depression.
 2. Changing system of taxation—the falling down of real tax as a source of public revenue.
 3. The problem of social re-adjustment

(Continued on page 3, col. 2)

Y.W.C.A. ELECT OFFICERS

Thirty-three interested girls met Thursday, Feb. 15, in Shatzel Annex under the leadership of Miss Fern Kaiser and Miss Viola Bormuth to organize the Y. W. C. A. for the semester. After a song service in charge of Miss Bernice Kising with Miss Dorothy Pace at the piano the election of officers was held. The election resulted as follows: President, Fern Kaiser; vice-president, Kathryn Fox; secretary-treasurer, Faye Hardin, and chairman of program committee, Viola Bormuth. Miss Alma Leedom was chosen as counselor for the group. The girls have chosen to meet every two weeks on Thursday, making the next meeting come March 1 at 7:00 o'clock and are planning a series of interesting programs and discussions. We extend an invitation to all girls on the campus who are interested to become members of our organization and help carry forward the torch held high by the Girl Reserves and the Y. W. C. A.

Magazines Unchained

Last week, magazines were again placed on the racks in the main reading-room of the Library. The restoration of this practice should be appreciated by the student-body, since periodicals are of most benefit when they can be easily obtained. And in recognition of this fact, we trust that students will take advantage of their opportunity with enough good sense to refrain from childish mutilation of the magazines. It was because of such carelessness or brainlessness that the service had to be discontinued last spring. Let's not allow that to happen again!

Y. M. C. A. Scores Again

The college Y. M. C. A. again comes thru with flying colors. We refer to the successful operation of the Book Store by this organization during the past few weeks. The value of this exchange-shop should not go without mention, and we take this opportunity to congratulate Chairman Burton Bearss and his corps of volunteer assistants on the efficient management of the store. It proved of inestimable value to many students in the disposition and acquisition of text-books for the new semester.

Little Boy: "What was the name of that last station we passed, Mother?"

Mother: "I don't know. Don't bother me, I'm reading a story."

Little Boy: "It's too bad you don't know 'cause little brother got off there."

Teacher: "Johnny, can you tell me how iron was discovered?"

Johnny: "I heard Dad say yesterday that they smelt it."

"Unless you pay us soon," wrote the black-mailer, "the gang will be instructed to kidnap your wife,"

"I have no money," came the reply, "but I am interested in your proposition."

Professor Schwarz Describes Religion of Daniel Webster

An inspiring talk on "The Religion of Daniel Webster" was given by Professor Schwarz in Assembly, Tuesday, Feb. 13. Miss Lucy Newman contributed to the program by singing two songs, "Wings" and "In a Garden".

MORE "GRADES"

After reading the article "Grades", recently printed in the Bee Gee News, true students undoubtedly wrote indignant replies to the accusation of "catering" to teachers. True students are generally intelligent people with a penchant for thinking. On further reflection such people would decide that the most dignified—and, incidentally, the best—reply to such a tirade is silence. They tore up their papers, therefore, leaving the author of "Grades" un-honored by a challenge.

Is this a logical explanation of the unexpected silence following the appearance of the article?—Michael A. Wells.

REVIEWS BOOKS

Miss Grace Durrin reviewed a number of books for the members of the Kindergarten-Primary club at the February meeting, last Wednesday. Following is a list of books which have been published in 1933:

Bianco, Margery Williams; *Hurdy Gurdy Man*.

Colum, Padraic; *The White Sparrow*.

Farjeon, Eleanor; *Over the Garden Wall*.

Frost, Frances; *The Pool in the Meadow*.

Gag, Wanda; *The ABC Bunny*.

Hader, Berto and Elmer; *Spunky*.

Lathrop, Dorothy; *The Little White Goat*.

Petersham, Maud and Miska; *The Story Book of Things We Use*.

Sewell, Helen; *The Blue Barns*.

The Literature Committee of the Childhood Association of America; *Told Under the Blue Umbrella*.

1940-3440

A Brief History of the World
(Continued from Last Week)

The European War (1940-1946) saw the final break-up of the French nation, which had begun in the fall of 1934 when Dulaire scored his "coup d'etat" setting up the short-lived "Proletariat Regime". Mussolini (until his assassination in 1949) was ruler of all Europe. By the Treaty of Rome (Sept. 14, 1946), France, Hungary, and the Balkan States became provinces of the "Kingdom of Italy", while Germany and Yugoslavia became enlarged allied Fascist states. Poland, again, nearly disappeared from the map. Britain, stripped of her colonial possessions, depended on the American Republic for her existence.

By 1940, Japan was well along in her piece-meal assimilation of China, only the

Announcements

Open meeting of Emerson Literary society tonight, 7:30 o'clock, Room 103A.

Open Forum. Discussions on:

1. College Fraternal Organizations. Value?
2. CWA-Worthwhile? Permanency?
3. College Education in 1934. Yes or No?

Every member should prepare to participate in this forum. Every college student is welcome.

The Women's League cordially invites all members of the faculty and student body to attend a Washington's Birthday Tea Dance, Thursday, Feb. 22, from 3 until 5:30 p. m. at Shatzel Annex.

March 1—Y. M. C. A. meeting in Room 104A with Miss Henderson as guest speaker.

Feb. 22—Vacation

Feb. 28—Detroit, here.

Why Editors Leave Home

He waved an absent hand.—American Magazine.

We are glad to report that Mrs. W. E. Hilbert and little son, Master Clifford Hilbert, are suffering from a severe attack of Measles.—Kentucky Advocate (Danville, Ky.)

Ralph Conrow of Unadilla has been making improvements on the mother, Mrs. Mary Conrow. He has made improvements on the inside and painted the outside.—Bainbridge (N. Y.) Republican.

Mrs. S. M. Kinter will be glad to take orders for home-made Christmas candies. Those who have sampled her candy need further recommendation.—Bureau County (Ill.) Republican.

In addition to the free showing of the film, which shows the manufacture of this unusual car step by step, a sport model couple will be on public display for the first time in Omaha.—Omaha (Nebr.) World-Herald.

The Prince was thrown heavily across the horse's neck but clung tenaciously to the animal's mane and to the saddle. The Prince finished only three years behind the winner, despite the accident.—New York American.

Guilford's right hand clutched a cane. His left eye was hooked about the arm of his personal physician.—Chicago Daily News.

Mrs. F. H. Hopwood is in Wolf Point taking a course in chiropractic statements.—Hinsdale (Mont.) Tribune.

Fred Herbert was fined \$100 and sentenced to three months in jail by Police Magistrate Sheppard today while intoxicated.—Texas Paper.

Food For Thought

War is in the air! People on the street speak of it, class-rooms discuss it, newspapers are full of it, but what is there behind the screaming headlines? On analysis, we find that world peace is jeopardized in two sectors: central Europe and the far East. To derive a basic understanding of the troubles in these regions, the earnest student must read something of current periodical literature. Herewith we suggest a guide for some such study.

H. H. Railey gives a good general background in his "Fear Over Europe" in February *Forum*. *Current History* for the same month offers much "food for thought". Especially good is "Nazi Dreams of World Power" by Prof. Frederick L. Schuman. The Editorial Paragraphs of the *Nation* always contain notes on world affairs, and in addition the February 14 number presents John Gunther's "Keeping Hitler Out of Austria". This author, a correspondent in Vienna, also contributes the timely (!) "Dolfuss and the Future of Austria" to *Foreign Affairs* for January, 1934. *Foreign Affairs*, a quarterly, is a journal which contains a wealth of valuable material in every issue. In the current number we also recommend "Japan in Manchukuo" by H. F. Timperley.

Time, for February 12, gives a comprehensive view of current Russo-Japanese relations in the "Foreign News" section. A similar presentation is to be found in the independent *Detroit News* for Sunday, Feb. 18. And since we have entered the newspaper field, we wish to call attention to H. R. Knickerbocker's series of dispatches, "Will War Come", in the *Sentinel-Tribune* and *Toledo Blade*.

Finally, the student who is really endeavoring to keep abreast of rapidly moving world events must regularly peruse some one of the well-known daily newspapers. Personally, we prefer the *Cleveland Plain Dealer*, and the members of the Scripps-Howard chain.—D. C. K.

Yes. He is a very sad case. He washed with Life Bouy soap for three years and then found out he was unpopular anyway.

Mary had a little lamb
Some salad and dessert
And then she gave the wrong address
The dirty little flirt!

The preacher had just finished a sermon in which he said, "all liquor should be thrown in the river." The choir ended the services by singing, "We Will Gather at the River."

BRIEF OUTLINE OF ADDRESS (Continued from page 1, col. 2)

affecting all social and financial institutions.

4. Possibly a changing public attitude toward schools due to some of the finished products of both schools and colleges.

5. The refusal of some people deeply seated in high places in education to recognize that the world does move.

b. Some of the results of this apparent breakdown.

1. One hundred thousand more school children are this year denied all educational opportunities due to closing of schools.

2. One out of every two cities compelled to drop some important school service.

3. Two hundred thousand certificated teachers unemployed.

4. Two hundred fifty-nine school districts in 29 states default on bonds.

5. The number of pupils per teacher much increased.

(3) *The Hopeful Side of the Picture*

a. Present tax system obsolete these many years and due to be discarded.

b. The states are recognizing the principle of state obligation in education.

c. The American Legion pledges its support to the cause of public education.

d. The Federal government has awakened to the needs of education.

f. Many of the unemployed teachers should have been unemployed these many years. It may prove a healthful and effective means of leavening the ranks.

g. To the teacher who has the right stuff of leadership to meet the new day, this is the chance of our educational history.

(4) *Some of the Qualities in a Teacher Desired by a Superintendent or Board of Education*

a. Education and Preparation

1. Reasonably high scholastic attainment.

2. Well trained in both general and professional field.

3. Rapid trend toward increase in standards of teacher training.

b. Personal Appearance

1. Taste and cleanliness in dress.

2. Body healthy and free from physical defects.

3. Spend as much on clothes as necessary to present good appearance. It pays to dress well.

c. Willingness to Work

1. Do not be afraid to run the extra mile for which apparently you receive no pay.

d. Honesty and Loyalty

1. Be square at all times and loyal to your school system.

e. Human Qualities

1. Many teachers fail because they are not human. They must be sincere, sympathetic, and humble.

f. Knowledge of what is going on in the

HITHER AND YAWN

Pen Contest?

What with beauty contests, popularity contests, elections, and debates, the student who has an "itch to write" ought to have an opportunity to scratch! Why not a literary contest? There are a large number of students in the College who can write well and who would if there were a little inducement outside of English classes.

Encouragement, such as a contest would give, might bring out some "shaded lights". The participants in other contests seem to have enough compensation in the title of "winner"; perhaps the wholesome pride in achievement and publication in the Bee Gee News would be reward enough for the winner of a pen contest.

Timely Open Meeting

In line with the attempt to impress students with the importance of an interest in present-day affairs stands the program of the Emerson Literary Society tonight. Members of this society have the opportunity to express their opinions on subjects of interest to them without fear of criticism, prejudice, or influence on grades. Practice in speaking improves their ability and gives confidence.

A discussion of current topics is timely and worthwhile. Tonight, every member should be able to find something to interest him in the wide range of the subjects. Incidentally, this is to be an open meeting, and non-members might do well to spend an hour with the Emersonians. If enough interest is shown to prove this experiment effective, perhaps there will arise more discussion groups to appease the hunger of the thinking student—scarce though he be.

Finds Barometer

While examining some miscellaneous articles in the storage room of the Science Building, Professor Moseley found a valuable aneroid barometer which had been mislaid for several years.

world and knowledge of the people who live there.

1. Know the local community through community activity.

2. Select the right sort of personal friends.

3. Form a connection with the church. The best people of the town are there.

4. Know your pupils as human beings. Teach boys and girls rather than subjects.

5. Avoid cliques and too many bosom friends.

g. Pride in a Job of Work Well Done

h. Keen Sense of Humor

i. Character Built on Sound Philosophy of Life.

SOCIAL EVENTS

FRATERNITIES

FIVE BROTHERS

Home at last! Down on West Wooster street the insignia of Ye Olde Fixe Brothers marks the present abode of a congenial group.

On the afternoon of Tuesday, Feb. 6, the entire student body was invited to inspect our new living quarters.

The grand opening of our house, in the form of a smoker, began at 8 p. m. Card playing, chess, talks, and various other forms of amusement were enjoyed by approximately seventy-five men. An abundance of tempting sandwiches, peanuts and peanut brittle was served. Cigars and cigarettes were distributed freely to all desiring to lay a smoke screen. Various guests were called upon to speak, as well as our fraternity advisors, Prof. E. C. Powell and Dr. Slater. George Lutman and Ervin Hagedorn represented the Delhi and Commoner fraternities. Doc Lake, one of the charter members of the fraternity, related many of his inspiring fraternity remembrances. The chief topic was the benefits derived from affiliation with a college fraternity. Long after the clutches of text books and lesson plans have been broken, the ties of a true friendship will still be intact. Such is the bond that binds a real fraternity.

Group singing brought the gala event in line with this intimate spirit of fellowship, after which a cordial invitation to return was extended to all.

W. A. A. MEMBERS HOLD A VALENTINE PARTY

Old and new styles of athletic costumes were demonstrated at the W. A. A. Valentine Party held in place of the regular monthly meeting on February 14, when Ione Blessing and Ruth Andrews played a Badminton game dressed as an old-fashioned boy and girl. Elizabeth Frost and Millicent Gamber followed, playing a second game dressed in modern gym suits.

A candy hunt and other games were features of the program.

W. A. A. members also planned a membership drive for their next monthly meeting.

Williams Hall News

Since the beginning of the semester the population (or that part of it included in Williams Hall) has been increased by the significant number of twelve. One of the events of the fortnight was the return to the flock of Ruth Andrews. Grandma Dalton, chief shepherdess, is warned that henceforth there may be some "cutting up"—or is it called "shearing"?—among the lambs.

There has recently been some mistaken identities. You run into the right person and call her by the wrong name. But you couldn't miss Odessa O'Brian. She has the red hair that goes with her name—and after she reads this we shall see whether she has the temper. How's that for a thumb nail sketch?

Ask Laverda Hutchinson how one should eat raisin pie. The correct answer is "with a spoon".

Eva Sack is doing some special work. She is trying to prove that Violet Gratz has practice-teaching three times a day, using data which resembles Diophantine Algebra. It sounds like "How must three eggs be divided among five people so that one will be left on the dish?"

Y. M. C. A. MEN SWIM AT TOLEDO

About thirty Y. M. C. A. men motored to Toledo last Thursday evening for a swim in the Toledo "Y" building. After an enjoyable hour in the pool, the men adjourned to a meeting-room where they partook of a picnic supper, and held a brief business session. Robert Bender entertained with several readings.

The speaker of the evening was Mr. Miller, head of the Boys' Department of the Toledo Y. M. C. A. He stressed the fact that each man has the key which should open the door to a successful life if used properly. This key, the speaker said, is the key of opportunity, which should be regarded as three-branched: intellectual, physical and spiritual. Intellectually, each man should prepare himself to take his place in the world. Science and government are two of the fields which present unlimited opportunities, Mr. Miller pointed out, and the maintenance of world peace is a task which will require keen, well-trained minds. The speaker also emphasized the importance of keeping the body in good condition physically. He closed by giving a brief description of the activities of the Toledo Y. M. C. A.

Four faculty members accompanied the Y. M. C. A. men: Mr. Fauley and Prof. Powell, the club's advisors, and Dr. Martin and Mr. Singer of the Science department. No meeting of the group will be held this Thursday because of Washington's birthday.

SORORITIES

FIVE SISTER NEWS

Ten years ago, in the month of November, 1923, a group of five girls secured from President Williams, the permission to organize a sorority. They were true pioneers in this venture, for they formed the first organization of its kind to be recognized as such on the campus. Since that time the group has grown very rapidly.

In honor of our tenth anniversary, the active chapter entertained the alumni members at a Homecoming celebration on Feb. 17. Thirty-eight former sisters with twenty-three active members were in attendance at the luncheon which was held in the Woman's Club. We were honored to have with us four of our charter members and seven presidents. Mrs. Alice Veber Nelson, our first president, was asked to cut the huge 3-layer birthday cake which graced the center of the table. Speeches were then in order, and after the welcoming remarks by our president, Mary Florence Mong, our two sponsors, Mrs. Mooers and Miss Hall and each of the former presidents and charter members were heard from. Needless to say, we found out many interesting things about the former years of our sorority.

After the luncheon, we returned to the house where formal initiation was given to the following pledges: Aileen Vickers, Mildred Bloedorn, Margaret Sheffer, Sue Bellows, Frances McIntyre, Dorothy Martin and Kate Held. Following this ceremony, we all engaged in a further renewal of old acquaintances and the formation of new ones. Those who felt musically inclined gathered around the piano and sang favorite selections. Before we knew it, tea-time came and we adjourned to the dining-room where tea was served. Sitting around in groups and visiting together, we could not help but wonder how long it would be, before we would all see each other again. However, I know that we sincerely hope that it will be soon—and are looking forward to the occasion.

Deer Pap: I got to New York this morning. They have buildings here as long up in the air as from our cow shed to Nellie's barn. Your son, Newton.

Deer Newton: Come home or stop drinking. Your Pop.

THIRD ROW—Coach Landis, Murray, Albon, O. Thomas, Copeland, Wilson

HEIDLEBERG DOWNS FALCONS

Friday night a large crowd witnessed one of the fastest and most thrilling games to be played in the local gym this season. Both teams were fast, deceptive, exhibited a beautiful brand of ball and proved their ability to handle a ball like pro's. Heidelberg outweighed the Falcons at the center post. Blum, well over six foot, controlled the tip-off throughout the game. After a few minutes of play, K. Weber was forced to leave the game due to fouls. Cox replaced him at center but could not compete against the Heidelberg giant.

It was a neck to neck race throughout. H. Fischer opened the scoring race for the

Princes and Shafer for the Falcons. Weber fouled Blum twice adding two more points for the opponents. Weber again fouled him but the free throw bounced off the rim. O. Thomas replaced W. Thomas and Cox went to center. Cox made good a free throw and Shafer tied the score with a long goal.

Seele fouled Johnson who netted it to give the Falcons their first lead. Weber left the game before the 10 minute marker flashed on. W. Thomas replaced him and G. Fischer tied the score. Cox sank a long one. Seele added 5 points for the opponents before the half ended. Score 11-8, Heidelberg's favor.

O. Thomas netted two free tosses from a foul on Nye who replaced H. Fischer and Shafer caked one on a foul from Seele. In return Nye and Seele each made a free throw on a foul from O. Thomas and

Shafer respectively.

Shafer caged another foul shot and on an out of bounds play W. Thomas passed to O. Thomas to put the Falcons in the lead 14-13. G. Fischer tied the score with a free throw. Cox tapped in a goal from the backboard. Seele made a free throw and a short field goal. Blum, on a pivot play tallied two more points. O. Thomas sank a long one. Phillips relieved Shafer. Blum fouled Cox who netted two points to put B. G. in front, 20-19. G. Fischer tied the score as the game ended.

In the overtime period, Seele made four points and G. Fischer two free throws and Shafer made a free throw and Cox netted two free throws. Had B. G. made all their foul shots we could have easily defeated Heidelberg. Although this was a hard game to lose it was a good game.

(Continued on page 6, column 3)

I'M TELLING YOU

And that's it, folks, that's it! I'm gonna be telling you. Ya' know, I see so much, hear so much, and know so much about what goes on around this campus that it's getting me down. Why! Because, really, I don't like to talk about people. To me that's one of the lowest things a person could do—go around and talk about somebody else. Its showing partiality because he never gets around to everybody. So because of this I've decided to write about it. Much better—don'tcha' think so?

Now get me straight, pals, I'm not a Mrs. Winchell, and I profess to be neither omnipresent nor omniscient. But—I have got the low down—the good ole' low down. And I'm gonna pass it on to you and you and you. Of course, this is my first writing in the good ole' B. G. News, so I'm gonna start out kinda slow, but I'll be telling you more and more and more each week. Before I forget—didcha' know that somebody in Shatzel Hall was married a week ago? Yes married! Is she good looking? Very! Who did she marry? You find out who she is and I'll be glad to tell you who she married. A devoted pair have separated. Gee, that's tuff, but what's bad for one is good for another—so I've heard. Anyway, another girl managed to have a date with him right after that. Just one of the many of her dates, however. Beautiful boy has been trailing around after her lately. Course he is engaged—so he says. Didn't cha know that? However, he got gyped, turned down, refused, or anything you want to call it Saturday night by ——— wouldn'tcha like to know. Well, pals of mine, I must stop being for this is only an introductory writing or a sample of the low-down you'll be getting every week from now on. Be careful, pals, and watch out for me cause I'll be watching you with both eyes.

Auf Weidersch'n Palsy Walsy

Definitions

A highbrow is a person educated beyond his intelligence.—Brander Matthews.

A critic is a legless man who teaches running.—Channing Pollock.

Positive—mistaken at the top of one's voice.—Ambrose Bierce.

Gratitude is said to be the hope of favors to come.—Eliot Gregory

A reformer is a guy who rides through a sewer in a glass-bottomed boat.—James J. Walker.

History is past politics.—Edward A. Freeman.

Genius is one per cent inspiration and ninety-nine per cent perspiration.—Thomas Edison.

Courage is grace under pressure.—Ernest Hemingway.

Oats—a grain which in England is generally given to horses, but in Scotland supports the people.—Dr. Johnson.

A cynic is a man who knows the price of everything and the value of nothing.—Oscar Wilde.

1940-3440

(Continued from page 2, col. 2)

region in South China under the Cantonese Communist rule had held out. In attempting to conquer Soviet China, Japan precipitated the Cantonese War with Russia coming to the aid of her Communist ally, in 1947. By the spring of 1949 it looked as though Japanese arms were going to carry all before them. But the preceding winter had been severe, with riots among the populace in Tokyo, Fukien, Yokohama, and Nanking. In July, 1949 came the surprise event of the century, more surprising than the Russian Revolution of 1917 or the Rise of Hitler in 1933. This was the overthrow of the Imperial regime, the creation of a Soviet Japan, the union of Russia, China, and Japan into one vast Communist state, and the conquest by this new nation of India and the Near East. All this took place in less than 40 months!

To protect themselves from the other vast aggregations (America, Bolivara, Greater Italy and Pan-Asiatic Soviet Federation) Denmark, Sweden, Norway and Great Britain in 1952 organized the All-Scandinavian Union. This later included Germany which in 1955 under Herman Muller overthrew the Fascist regime.—Ernst Van Dale
